What is Anti-bribery

To effectively combat bribery and corruption, it is important to understand what these terms mean and how they manifest in the workplace:

- Bribery involves offering, giving, receiving, or soliciting something of value to influence the actions of an individual in a position of power.

- Corruption is a broader concept that encompasses the abuse of power for personal gain. While bribery is a form of corruption, corruption can also include other unethical practices. Corruption undermines trust in institutions and can have far-reaching consequences for businesses and society.

According to Transparency International's Corruption Perceptions Index, the UK ranks 11th out of 180 countries in terms of perceived levels of public sector corruption, with a score of 77/100. While this indicates a relatively low level of corruption compared to other countries, bribery and corruption remain significant issues.

- The UK government reported that in the last 12 months, over £1.4 billion in assets were seized or frozen as part of efforts to combat economic crime, including bribery and corruption.
